Thanks for including me on this. We'll need to coordinate any planned enforcement efforts moving forward. We also should reach out the USCG point of contact to obtain more information and discuss whether it plans any future enforcement. I can help out with this until we have a better handle on what's going on. Please let me know who to include when reaching out to USCG.

Thanks, Sonia.

NPDES goes to Ryan Bahr's team in WD (cc'd). We'll also evaluate re: CWA311.

Mick

Not sure if this should go to you but USCG has concern about this company's compliance with their permit. They have been responding to sheen in the canal and Lake Michigan.

If this is not in your shop, please forward it on. The NRC report number is 1168227.

Thank you,

Subject: Arcelor Mittal Indiana Harbor Inc. National Pollutant Discharge Elimination System Permit

Good afternoon,

Arcelor Mittal Indiana Harbor Inc. has a National Pollutant Discharge Elimination System Permit. Pollution may be coming from this facility's outfall. We believe further investigation is warranted. POC Thomas Barnett O: 219-399-2380, C: 219-313-1605. Thank You!

Very Respectfully,  
LT Paul Arnold
